

Wi-Fi to Go Instructions

Mobile Hotspot Home Screen

Connecting to Your Device

Using USB Cable:

- Connect one end of the USB cable to your computer (USB port) and the other end to the ZTE Mobile Hotspot device
- Power on the ZTE Mobile Hotspot device
- Follow the system prompts to complete the software installation

Note: If the system does not automatically launch the installation, you will have to double-click the device installation icon in *My Computer* to install the software

- Allow 2 - 5 minutes for your device to join the wireless network

Tech Tips

- The ZTE Mobile Hotspot device is not equipped with a touch screen
- Press the Power button to light up the screen if it goes to sleep
